The image is a composite of three screenshots illustrating the AVI backup process. The top screenshot shows the 'AVI Backup' software interface with callouts 1 through 8. Callout 1 points to the camera channel selection grid. Callout 2 points to the time and date selection fields. Callout 3 points to the 'CD/DVD' option under 'Select Media to Save'. Callout 4 points to the 'Start Recording' button. Callout 5 points to the 'Open Folder to View Files' option in the Windows Explorer window. Callout 6 points to a folder named '06-11-2009 09:01:05'. Callout 7 points to the folder name. Callout 8 points to an AVI file within that folder. The middle screenshot shows a Windows Explorer window with callout 5. The bottom screenshot shows a video preview window with callout 8.
